

Contains Important Scottish Water Information

Project reference: Capital/508080/CWA

Our alliance partner, Caledonia Water Alliance, will be carrying out this work on our behalf.

24th September 2026

Improving Urban Waters in Nairn - Lochloy Road

What we are doing

We are upgrading the wastewater system in your area to prevent sewer related debris from being released to the River Nairn at times of heavy rainfall. This involves carrying out improvements to the existing wastewater network in Lochloy Road and within the car park outside Scotmid/Bella Salon, Lochloy Road, Nairn.

This work involves the construction of a new improved underground storm overflow chamber with powered screen within the car park along with some sewer realignment works involving new sewers and manholes both within the car park and in a section of Lochloy Road.

When we are doing it

Work is planned to start in Lochloy Road from Monday 5th October for approximately 9 weeks.

Work then moves into the Scotmid/Bella Salon car park with the full programme expected to be completed by end of May 2027

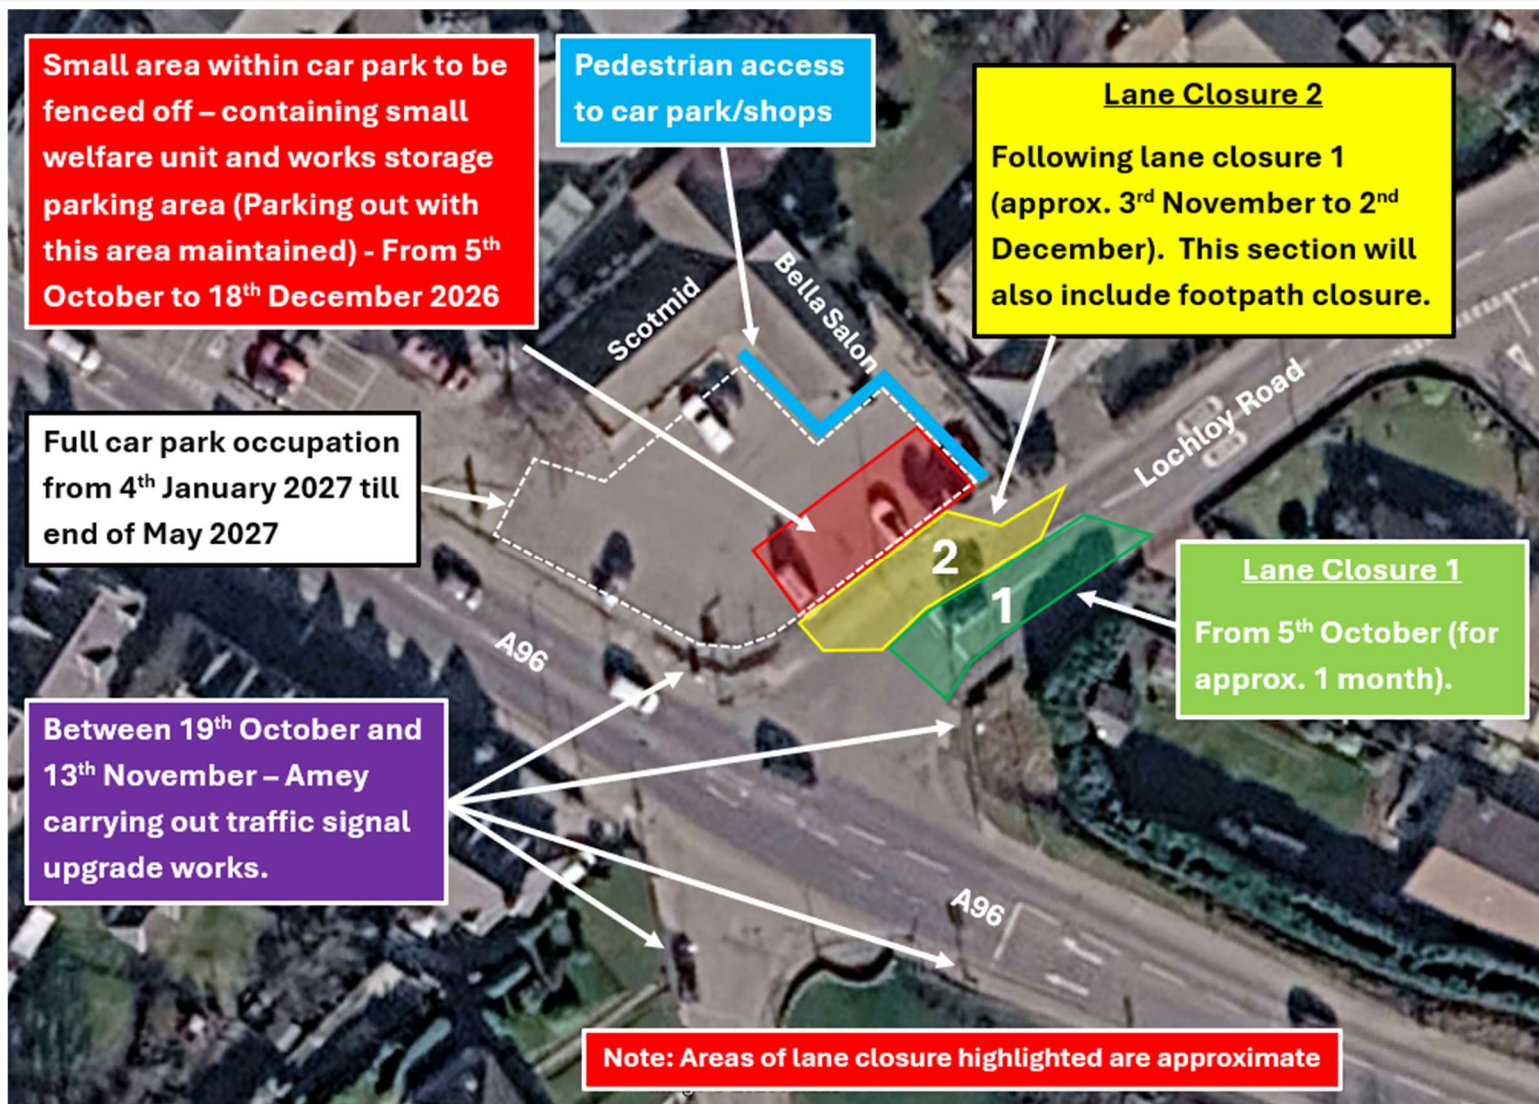

What happens next

- During the work in Lochloy Road there will be temporary 4-way traffic lights in operation at the Lochloy Road/A96 junction. Our Traffic management contractor will be onsite from 7am to 7pm, 7 days a week and will be able to take manual control of the lights when required to help minimise delays and maintain traffic flow.
- Between 19th October and 13th November, Amey will be carrying out essential traffic signal upgrades at the Lochloy Road/A96 junction within the same traffic management. This collaboration has been agreed to reduce the overall disruption for motorists by avoiding separate visits by each organisation.
- From 5th October up to 18th December, we will occupy a small area of the car park (see overleaf). This arrangement is a slight change from previous plan; however, it will allow us to keep open a portion of the car park for longer. We hope to be able to open the car park up over the Christmas break with the full car park occupation starting in January (previously November).
