

Project reference

Margaret Walk/503333/CWA

Our alliance partner, Caledonia Water Alliance (CWA), will be managing this work on our behalf.

3rd September 2026

Taking care of your sewer network in Lincluden

We wrote to you recently regarding planned works in your area and would now like to give you a further up date.

What we are doing

We are taking care of your wastewater services in your community which will help prevent sewer flooding and to do this we need to upgrade the sewer network in your area.

When are we doing it

We have encountered engineering difficulties on Stewartry Road, which have resulted in an extension to the planned programme of works. We are now aiming to complete this section by the end of October 2026.

As a result, work on Margaret Walk will now commence at the end of October and last approximately 12 weeks.

What happens next

- Please see over the page for further details.
- Your water and wastewater supply will not be affected by these works.
- The project will consist of installing a new pipeline as well as the construction of a new storm overflow tank.
- There will be roadworks during the dates above. This will include the use of temporary traffic lights, road closure and footpath closure. Advanced signage will be in place prior to any road closures taking place. Please follow all signs put in place.
- You may see and hear an increase in construction traffic and noise during the project our site team will endeavor to keep the level of noise and disruption to a minimum.
- Working areas will be reinstated to their original condition upon completion of the project.
