Welcome

Thank you for attending today's event about our upcoming sewer upgrade works in Monifieth.

The objective of this event is to:

- provide information and discuss the project.
- answer any questions or concerns you may have.

Come explore the project and speak to our team about:

- why this work is necessary.
- our proposed methodology and project timeline.

Please don't hesitate to speak to the team if you have any questions to ask, or feedback you'd like to give - we are happy to help!

Taking care of your sewer network

Why this work is required?

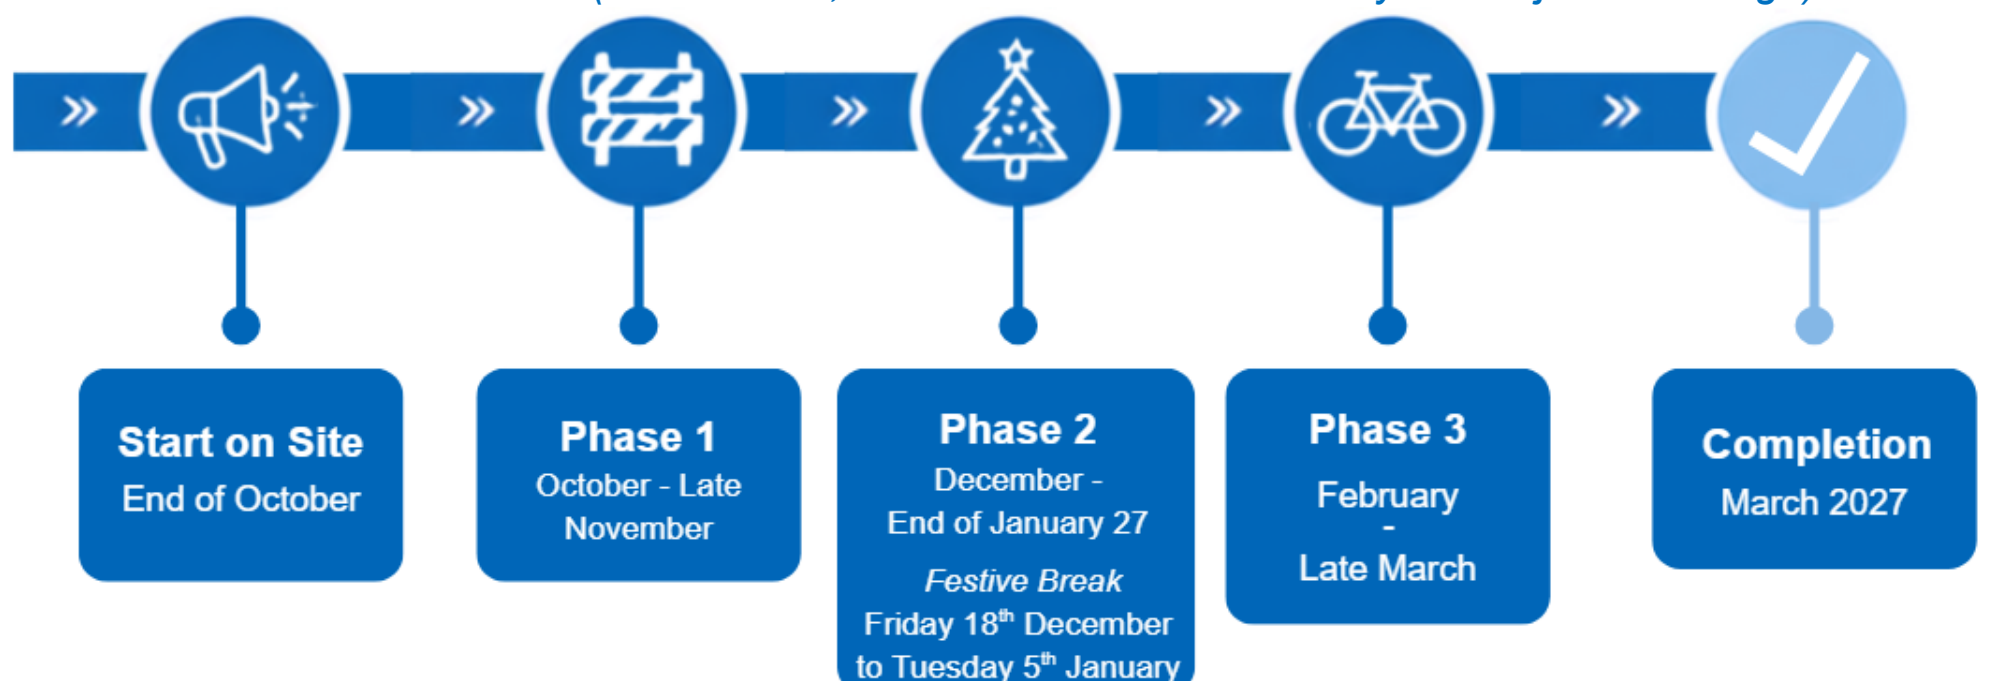

- There have been repeated bursts on the sewer over several years due to its ageing lifespan.
- While repairs are always carried out when issues occur, sections of the pipe continue to be at risk, leading to ongoing maintenance requirements and disruption for our customers.
- The existing sewer runs beneath the caravan park, and repeated bursts have the potential to create environmental and public health concerns.
- Diverting the sewer to a more suitable location will provide a more resilient, long-term solution for the community.

Morrison Construction will be working on behalf of Scottish Water to deliver this essential investment into the local wastewater network.

Benefits of the Project

- ☒ Improved reliability
- ☒ Protecting public health and the environment
- ☒ A long-term solution
- ☒ Supporting the local community

Forecasted timeline – *(Please note, dates are indicative and may be subject to change)*

Taking care of your sewer network

Phase 1 – late October 2026 work will begin at Riverview Drive and progress around the play park to South Union Street (turning circle). This work may last until the end of November 26.

What this means for the community

- Traffic management will be required for up to 5 days while we carry out the road crossing at Riverview Drive.
- Access to surrounding businesses will not be affected by our work – businesses will remain open as usual.
- The car park adjacent to the play park is expected to remain open for users.
- Access to the park and pathways will be maintained throughout this phase of the work.
- All areas of operation will be made safe and secure - please do not try to move any secure fencing or signage.
- We will do our best to minimise any disruption where possible.

Taking care of your sewer network

Phase 2 – from the end of November, we will install a new sewer main adjacent to the National Cycle Route. Work will begin at the South Union Street turning circle and continue to the end of Tayview Caravan Park. This work is expected to last until the end of January 2027.

What this means for the community

- The cycle route between the points noted will be temporarily closed while this work is carried out – see area in red below.
- Please take care while following diversion route signage.
- Access to surrounding businesses will not be affected by our work – businesses will remain open as usual.
- During the festive break (Friday 18th December, until Tuesday 5th January 27), excavated areas will be backfilled and the path will be reopened for public use.
- Work will resume in January 2027, with the cycle route temporarily closed again while construction continues.
- We will do what we can to mitigate noise and disruption for caravan residents during the works.

Taking care of your sewer network

Phase 3 – from the end of January, work will move to the area near the railway footbridge at the end of Tayview Caravan Park. A new sewer will be laid adjacent to the National Cycle Route and connected into the existing network. This work is expected to last until the end of March 2027.

What this means for the community

- . Most of the work will take place in the grass verge next to the cycle route, which will remain open for users.
- . All areas of operation will be made safe and secure. Please do not try to move any secure fencing or signage.
- . We will do our best to minimise noise and disruption where possible.

Keeping in touch

We are committed to keeping you, the local community, fully informed and engaged with the work we are doing.

You can access our dedicated webpage by scanning the QR code below to view project progress and all related information, or by visiting www.scottishwater.co.uk/Monifieth.

You can also reach us via our **24/7 Customer Helpline**, on **0800 0778778**. Please provide our project reference **Capital/561596/MorrisonConstruction**, when contacting us.

Project communications will be issued via press release, customer letters, and stakeholder updates when deemed appropriate. Updates will also be shared via Scottish Water's social media platforms:

- Instagram - scottishwater
- Facebook – www.facebook.com/scottishwater

We would like to thank everyone for their patience and understanding while we work to delivery this essential investment for the wastewater network in Monifieth.

Thank you for attending our event – please feel free to leave some feedback on one of our cards.
