19th June 2026

Taking care of your sewer network in Montrose - Update

Dear Customer,

I am writing to you with an update on our planned works in Borrowfield Park and surrounding area. We had originally hoped to be able to begin works earlier this year, however a number of factors including, planning and ongoing internal review of the project design meant that we have had to move our planned start date.

As you may recall, this work involves the construction of a new underground storage tank within Borrowfield Park and associated pipework. With new sewers also being constructed in Aulton Way, Newmanswalls Avenue and Newhame Road (see image overleaf).

We hope to be in a position to begin works towards the end of July 2026 with the first few weeks involving setting up the site compound and working area within Borrowfield Park.

Ahead of this date we will be holding another information event where we will provide a full update of the planned works and programme details. Please see below for details of the information event:

Information Event

Date: Thursday 9th July 2026

Location: Borrowfield Community Centre, Newhame Road Montrose, DD10 9EZ

Time: Drop in anytime between 16:00hrs & 19:00hrs

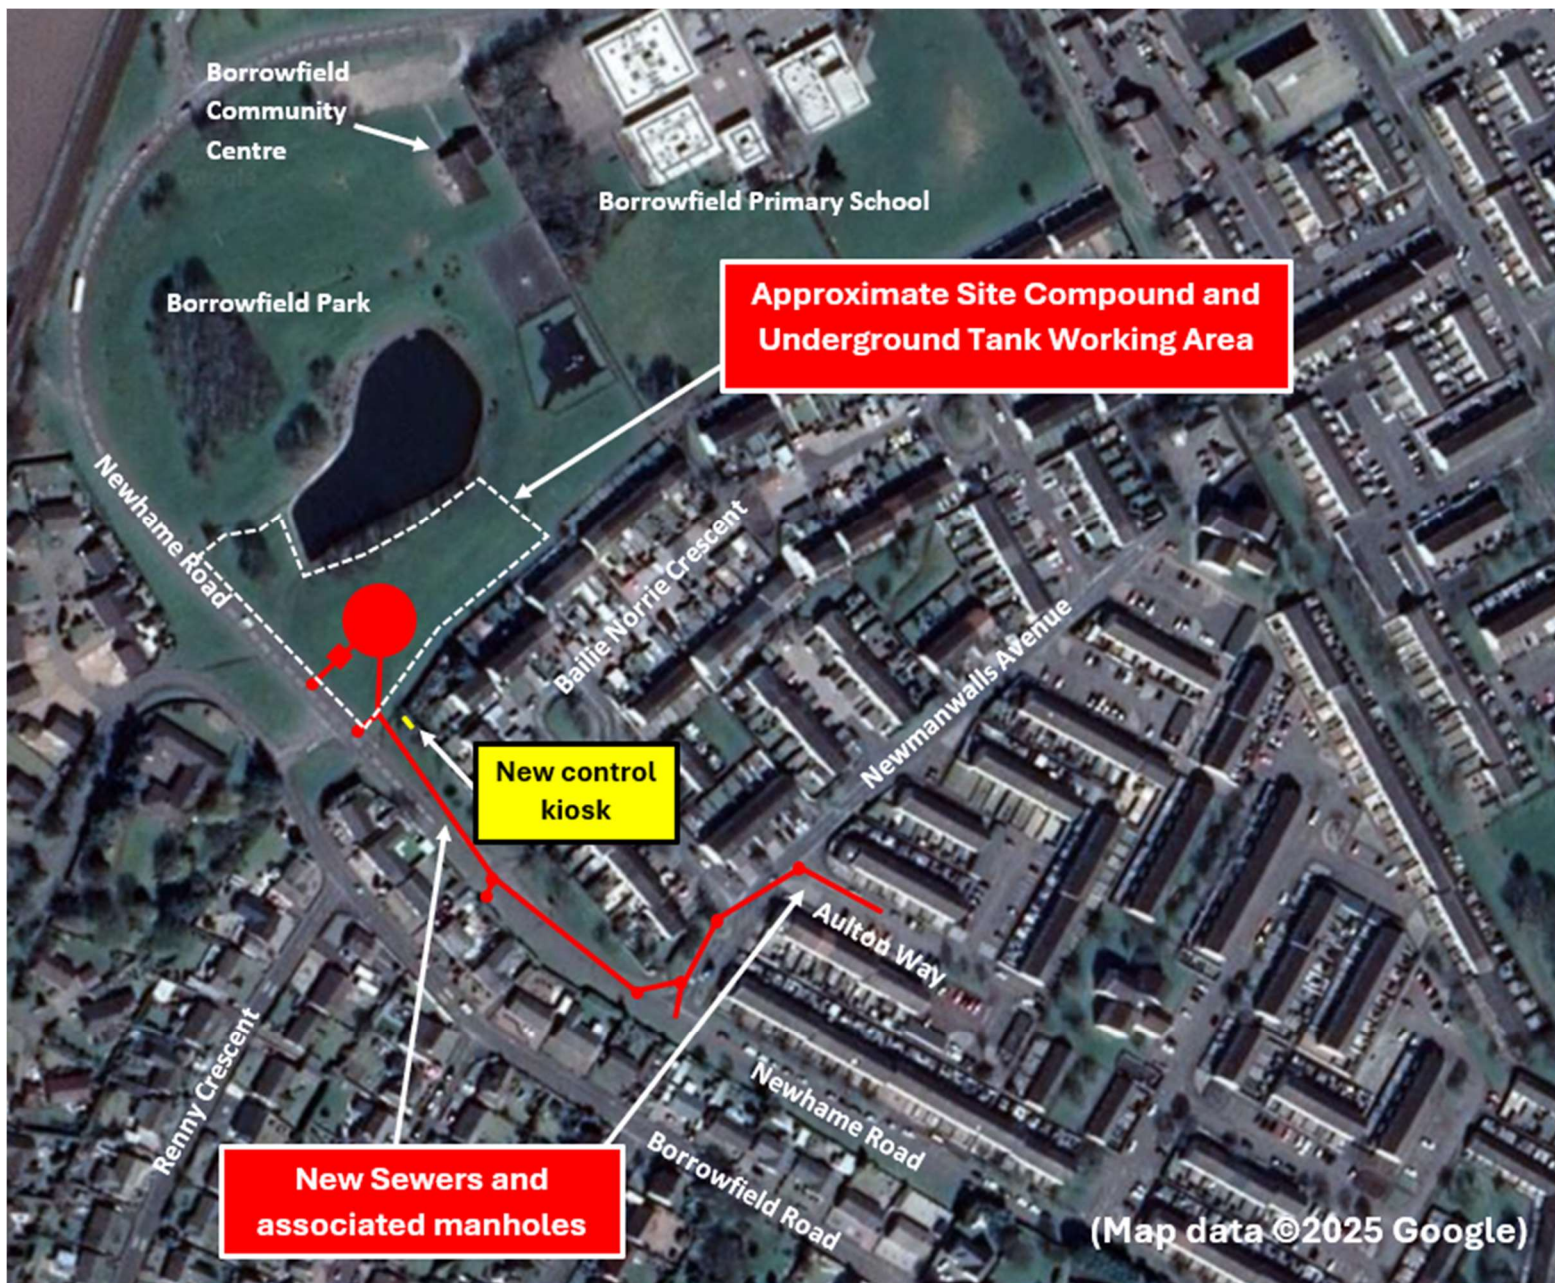

Members of the project team will be in attendance to answer any questions you may have about the works.

If you are unable to attend the event, all information will be available after the event on our project webpage www.scottishwater.co.uk/montrose
