Water

Trusted to serve Scotland

YOUR WATER AND WASTE WATER SERVICES

WHAT YOU
PAY IN
2026/2027

PIPED BY US, OWNED BY YOU

Scottish Water is owned by you, the Scottish public. Every penny you pay is clearly invested.

Scotland's water is vital to everyday life. That's why we must invest to protect our nation's most precious resource. From coping with climate change to upgrading our infrastructure, we work hard to ensure your water keeps flowing now and in the future.

The charges you pay allow us to operate and improve water and waste water services and infrastructure in communities across Scotland.

The average person in Scotland uses about 180 litres of clean tap water every day.

Washing, cooking, thirst quenching and showering – everyone's lives are water-powered.

Climate change and different weather patterns make it harder to deliver the water and waste water services you deserve.

We're investing around £1.1 billion in 2026/27 to meet future challenges. This includes extreme weather – like drier summers and heavier winter rainfall – as well as maintaining and replacing ageing infrastructure and reducing carbon emissions.

Promising to give you value for money

Around £1.50¹ doesn't buy much these days – you wouldn't get a takeaway coffee, a bus ticket, or a newspaper for that.

And yet, for around £1.50¹ a day you get enough water to use for the vital things that help you live your life, your way.

Every day we deliver around **1.5 billion** litres of clear, fresh drinking water to your taps, and remove nearly **3.5 billion** litres of waste water and rainwater which we treat, recover resources from and return safely to the environment.

Our services support more than **5 million** customers, in over **2.6 million** households and more than **160,000** business premises across Scotland.

With more than **60,000** miles of water pipes and sewers, and over **2,000** treatment works we support communities across Scotland.

The quality of our drinking water remains high - we carry out, on average, **1 quality test every 2 minutes²** on the water we supply to your taps.

Our focus is on delivering an excellent service, providing great value for money, and reducing our impact on the environment. We work 24 hours a day, 365 days a year to keep your water cycle flowing.

Our services – your rights

Customers and communities are at the heart of everything we do. We constantly look for ways to improve the service and value that we provide our customers. It is important to us that you have a great customer experience – and that when we say we will do something, we do it.

To find out more about your rights under our service standards visit:

Help us to help you

Everything we all do impacts the environment, so we are working hard to keep our water and waste water services as sustainable as possible.

You can help, together we can make a difference.

- Water is always worth saving - and helps save energy and money. Taking 2 minutes off your shower saves water and around £50 a year on your energy bill³.
- Look after our natural habitats and marine life - dispose of bathroom and kitchen waste items carefully to help prevent nasty blockages and spills.
- Stay hydrated and reduce single use plastics - use a glass or refillable bottle to top up from the tap and enjoy Scotland's great-tasting water.

For more tips and advice – visit:

Who regulates the water industry in Scotland?

Find out more about the water industry in Scotland and our regulators, by visiting:

www.ScottishWater.co.uk/WaterIndustryScot

¹ The average household is between Council Tax Band B and Band C and has a combined bill of around £1.50 a day.

² This is based on 2024 figures - the most up-to-date figures available at the time of going to print.

³ Source: Energy Saving Trust July 2025, based on a gas heated household of four.

Household charges 2026/27

Your charges are based on the Council Tax band for your home. The table below tells you what your charges are from 1 April 2026 to 31 March 2027.

Council Tax Band	Water Supply	Waste Water Collection	Combined Services
Band A	£201.30	£233.58	£434.88
Band B	£234.85	£272.51	£507.36
Band C	£268.40	£311.44	£579.84
Band D	£301.95	£350.37	£652.32
Band E	£369.05	£428.23	£797.28
Band F	£436.15	£506.09	£942.24
Band G	£503.25	£583.95	£1,087.20
Band H	£603.90	£700.74	£1,304.64

These charges apply to every household which has a connection to the public water supply, the public waste water network, or both. If your Council Tax bill includes services that you believe your home is not connected to, please contact our Customer Portal via: www.ScottishWater.co.uk/ChargesFAQ

Your water and waste water charges will be shown on your Council Tax bill, even if you receive Council Tax Reduction. Some Council Tax exemptions and discounts will also apply to these charges, such as single occupancy or if you are a student.

If your property has been altered to meet the needs of a disabled person, you may be entitled to a Disabled Banding Reduction on the charges you pay for your property.

Your local council bills and collects these charges on our behalf and you can find details of how to pay on your Council Tax bill. Please contact your local Council for more information and help with payment options.

Important: If you receive Council Tax Reduction you must still pay a water and waste water charge for the services that you have at your home. However, you will receive a reduction of up to 35% on the charges shown in the table above.
