Disclaimer:

1. A standard, non-returnable survey fee will have to be paid in advance to proceed with the survey.
2. An additional fee will have to be paid if the survey is outwith standard hours, and/or if the survey proves to be more complex and requires additional resources.
3. Standard installation costs of water meters may be subject to change should any additional work be required. Scottish Water will provide the meter only at our expense, all other costs involved in the installation of the meter must be met by you, as the resident, or property owner/landlord.
4. Scottish Water have provided additional information to allow you to estimate your charges, metered water service charges will be based on annual fixed charges dependent on the meter size and the services currently provided to the property and the consumption volumes recorded by the meter.
5. Household consumption is estimated at around 150 litres of water per person per day. The consumption element of the estimate (mentioned in point 4 above) is based on two people sharing, however the actual charge will vary depending on the actual number of people living in the property.
